Java Software Engineer at Grab

Cluj-Napoca, Cluj, Romania

Experience

Grab
Java Software Engineer
January 2020 - Present (4 years 2 months)
Cluj-Napoca, Cluj, Romania

I am currently working mainly as a backend engineer. At the same time, I
am responsible for the front-end component written in Java Swing which is
used by the analytics team. I also support my manager in prioritizing work and
mentoring two junior developers.

Telenav
1 year 6 months

Software Engineer
October 2018 - December 2019 (1 year 3 months)
Cluj-Napoca, Cluj, Romania

I contributed to end-to-end features' implementation in the JOSM(Java
OpenStreetMap Editor) plugins that were specialized in validating the identified
detections before being included in the map.

Software Engineer Intern
July 2018 - September 2018 (3 months)
Cluj-Napoca, Cluj, Romania

I worked on a proof of concept focused on probabilistic positioning of street
signs determined by vehicles' speed.
